

Muscat on 20th November 2023

Press Release

Oman Petro Environmental Services Company (OP), and Oil Spill Response Limited (OSRL) are pleased to announce the signing of a Mutual Support Agreement (MSA) in Oil Spill Preparation and Response. The agreement was signed in Muscat on 20th November 2023.

This agreement will facilitate closer cooperation between OSRL, as a well-established spill preparedness and response industry co-operative, and OP, as the leading spill response service provider in Oman, with an expanding presence in the GCC region.

This collaboration will offer our members more efficient and effective response capabilities, for our members, fostering seamless integration across all three tiers of response.

More importantly, this agreement comes as an important step for ensuring that Oman can rely on our collective efforts. Through these efforts, we aim to achieve a level of preparedness and response that matches the evolving and escalating risks associated with Oman's expanding role as a key player in the logistics sector and the rapid developments in the Omani energy sector.

About OP

OP is a 100% Omani-owned SME. The company specializes in oil spill response and environmental consultancy services, boasting a management team comprising both national and international experts, as well as the largest team of in-country response personnel, with the highest Omanisation percentage in its field in Oman. Our client base encompasses government agencies, government-owned, and private sector companies operating in the energy, logistics, and industrial sectors. OP has rapidly established itself as a renowned provider of cost-effective emergency response and environmental protection solutions. Having already delivered successful projects in the UAE and Qatar, the company is currently expanding its operations within the GCC region.

About OSRL

Oil Spill Response Limited (OSRL) is the largest international industry-funded cooperative which exists to respond to oil spills wherever in the world they may occur, by providing preparedness, response and intervention services. We are wholly owned by most of the environmentally responsible oil and gas companies, and our membership represents the majority of global oil production. We currently employ 300 people across 12 locations around the world.
